

## Assignment 1 Reducing Greenhouse Gases

Name 6 different activities that you can do, not do, or reduce that will reduce one of the greenhouse gases and ID that gas for each activity.

Ex: If I plant a tree that will reduce the CO<sub>2</sub> because the tree will use it for growth.

## Assignment 2 Climate Effecting You

If the climate is warming, explain 2 ways it will effect you personally.

EX: There will be more traffic in our area as more people move here because of rising sea level.
